1. Two different types of users. There are restrictions for different types of users.

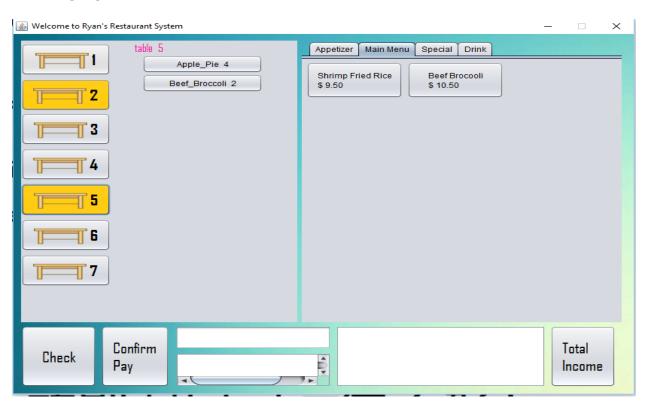

2. Main Ordering Page

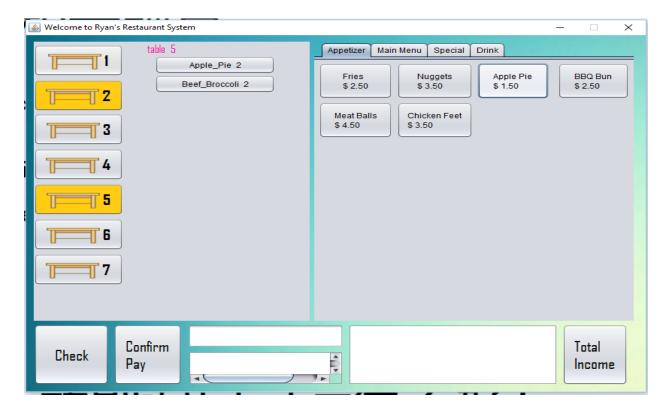

Click table first, then click items on right side, and it will add items to the table.

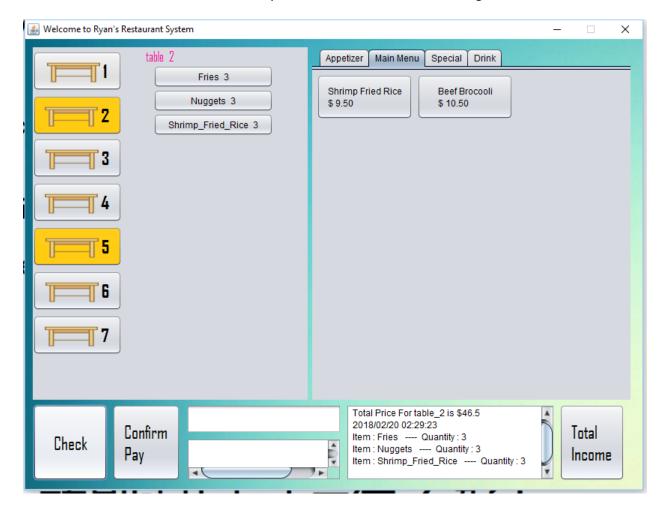

It will highlight the table if there is orders there.

You can also click 'C' to remove one item at a time.

Click "Check Button" to make check. And your orders will be shows on the right bottom side.

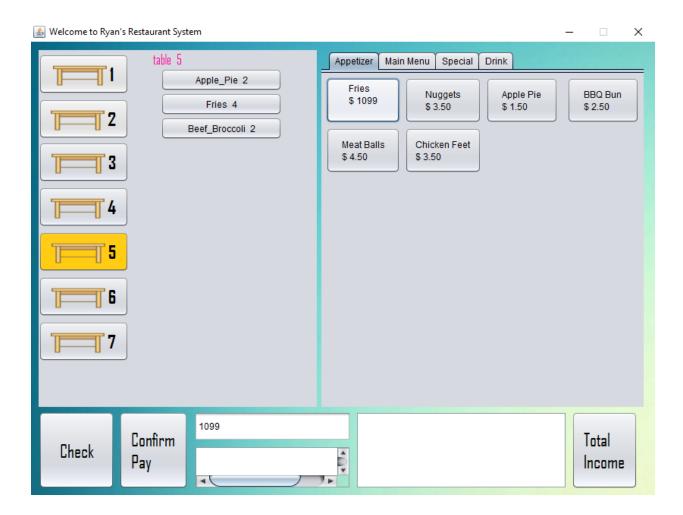

You can also use build in calculator to find change.

Once you click Confirm Pay, the receipt will be stored in CSV file, so you can print out. Also, since there is no more items on table 2, so it will not be highlighted anymore.

If you are the employer user, you can also modify the menu price by click "P" on the keyboard. Now, the item "Fries" change to unit price 1099

You can also click "Total Income" to check today's sale, but it is only for employer user.

Thanks for watchting!
